

## HP10-60HZ-230V MICROFIX

| Product code                | IB3DBB212060987 |
|-----------------------------|-----------------|
| Reactive power Ue=230V      | 12 kvar         |
| Nominal voltage Ue          | 230V            |
| Capacitors voltage Un       | 415 V           |
| Capacitors max voltage Umax | 455 V           |
| Frequency                   | 60 Hz           |
| THDI <sub>R</sub> %         | <20%            |
| THDIC%                      | ≤70%            |
| Load break switch           | 80 A            |
| lcc                         | 50 kA           |
| IP degree                   | IP3X            |
| Dimensions WxDxH            | 310x200x450mm   |
| Weight                      | 15 kg           |

NOTE lcc value: Other values upon request. Short-circuit withstand current conditioned by the upstream protective device.

## Standard features

| Max current overload In              | 1.3 ln                   |
|--------------------------------------|--------------------------|
| Max current overload In (capacitors) | 1,3 ln (continuous)      |
| Max overload Vn                      | 1,1xUe                   |
| Max overload Vn (capacitors)         | 3xUn (for 1 minute)      |
| Insulation voltage                   | 690V                     |
| Temperature class                    | -5/+40°C                 |
| Temperature class (capacitors)       | -25/+55°C                |
| Discharge device                     | mounted on each bank     |
| Installation                         | indoor                   |
| Service                              | continuous               |
| Internal connection                  | delta                    |
| Total losses                         | ~ 2W/kvar                |
| Inner surface finish                 | zinc passivation         |
| Standards (bank)                     | IEC 61439-1/2, IEC 61921 |
| Standards (capacitors)               | IEC 60831-1/2            |
|                                      |                          |

## Generalities

Zink-passivated metallic enclosure painted with epossidic dust paint, colour RAL 7035.

Load-break switch with door interlock.

Fuses with high breaking power NH00-gG.

FS17 450/750V self-extinguish cable according to EN 50525 - EN 50575 - EN 50575/A1.

IP3X protection degree.

CRM25 single phase self-healing metallized polypropylene capacitor with Un=415V-50Hz (350V60Hz) rated voltage.

Discharge resistance.

Signal lamp power on.

## POWER FACTOR CORRECTION SOLUTIONS WITH HIGH GRADIENT METALLIZED POLYPROPYLENE CAPACITORS
